

Vaccines

At Dierenhotel 't Gooi we only take in pets that have been fully vaccinated. The vaccinations must have been administered longer than 14 days before the start of the stay. Always bring along the vaccination book or European animal passport when you bring your pet(s) to us.

Dog vaccinations

The annual **cocktail vaccination** for dogs provides protection against Parvo, Weil, distemper and hepatitis. A vaccination against kennel cough (nose drop vaccination: Nobivac KC or Bronchi Shield) is also mandatory. They must have been administered at least 14 days before the start of the stay. The vaccination provides protection for 1 year.

Cat vaccinations

The vaccination against **Feline panleukopenia virus** must have been administered at least 14 days before the start of the stay. It provides protection for 3 years.

The vaccination against **cat flu** must have been administered at least 14 days before the start of the stay. It only provides protection for 6 months.

It is therefore important that cat(s) are vaccinated against cat flu **twice a year**.
